

Slate Straps

Description

Copper Slate Straps are high quality, durable and easy-to-fit slate fixings that hold broken, damaged or slipped slate roof tiles securely in place.

Once fitted, these copper slate straps are hardwearing and resistant to corrosion, moss and algae.

CODE	MATERIAL	DIMENSION	QUANTITY
AATU070150C100	Copper	150x0,7mm	100pcs
AATU070150C5XS100	Copper	150x0,7mm	5x100pcs

The slate straps are manufactured in accordance with BS EN 1652.

This European Standard specifies the composition, property requirements and tolerances on dimensions and shape of copper and copper alloy plates, sheets, strips and circles for general purposes.
