

Preventive solution

Prevent damage, fire risk, and loss of efficiency with the Connectpic Solar - Pro Panel Protection. This bird deterrent system prevents birds from nesting under the solar panel.

- ✓ Circular solution for a sustainable system
- ✓ Universally applicable
- ✓ Maintains warranty on solar panels

Universal and Sustainable Application

Thanks to the universal mounting clamps, you can install the Connectpic Solar - Pro Panel Protection in just a few seconds on the side of the solar panel. All 20m sets are supplied with four corner pieces and mounting materials.

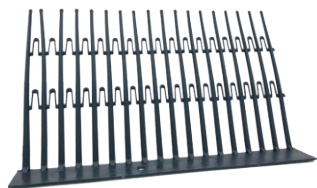

Warranties

To maintain the warranty on the solar panel, you should not stick or screw anything onto the edge of the solar panel. With the universal Connectpic Solar - Pro clamps, you can maintain the warranty on the solar panel, thanks to the optimal patented cable tie module.
